

SANIKA MAHAVIR ADMUTHE

✉ [Email](#) | ☎ [Phone](#) | [LinkedIn](#) | [GitHub](#) | 🌐 [Portfolio](#)

Professional Summary

Artificial Intelligence and Computer Science undergraduate and aspiring AI/Generative AI Engineer with hands-on experience building practical AI applications using Python and modern LLM technologies. Built projects involving RAG chatbots, AI agent workflows, and prompt evaluation and optimization. Familiar with Python, FastAPI, LangChain, LangGraph, Ollama, ChromaDB, Docker, SQL, and Machine Learning. Seeking an entry-level opportunity to apply technical skills and grow as an AI Engineer.

Education

Bachelor of Technology in Computer Science & Engineering

2022 – 2026

Parul University, Vadodara

- CGPA: 6.90 — Coursework: AI & ML.

Intermediate (12th)

2020 – 2021

L.G.R Purohit kanya prashala, sangli.

- Percentage: 80.67%

Professional Experience

Data Analyst Intern

Jan 2026 – Mar 2026

Unified mentor Pvt Ltd. Haryana.

- Analyzed and cleaned large datasets using Excel, SQL, and Python to identify trends, improve data quality, and support data-driven decision-making.
- Developed interactive dashboards and visualizations using Power BI, generating actionable insights and presenting findings to enhance business performance.

Projects

Production RAG Chatbot — [GitHub](#)

Python, FastAPI, LangChain, Ollama, ChromaDB, Docker

- Built a document-based RAG chatbot with vector search and context-grounded responses.
- Developed a FastAPI API with conversation history, source attribution, and Docker deployment.

AI Agent Workflow Application — [GitHub](#)

Python, LangGraph, LangChain, Ollama, FastAPI

- Built a tool-calling AI agent with calculator, knowledge search, memory, and retry handling.
- Implemented Human-in-the-Loop approval workflow and Docker deployment.

Prompt Evaluation & Optimization Platform — [GitHub](#)

Python, FastAPI, LangChain, Ollama, Docker

- Built a platform to generate, evaluate, and compare multiple prompt variants.
- Implemented LLM-based scoring and automatic selection/improvement of the best prompt.

Technical Skills

Programming language: Python, SQL

Generative AI: RAG, Prompt Engineering, LLMs, AI Agents, Fine-tuning

Frameworks: LangChain, LangGraph, FastAPI

AI Tools: Ollama, Hugging Face, ChromaDB, Vector Databases

Deployment & Tools: Docker, Git, GitHub, REST API, Swagger/OpenAPI

Machine Learning: Regression, Classification, Clustering

Deep Learning: Neural Networks, Deep Learning Fundamentals

Certifications

- Hugging Face — Fundamentals of Agents
- Kaggle — Intro to Machine Learning
- Kaggle — Python
- Deloitte — Data Analytics Job Simulation
- NPTEL — Introduction to Internet of Things
- NPTEL — Computer Networks and Internet Protocol
- Unified Mentor — Data Analyst Internship
